SUMMARY OF QUALIFICATIONS

- Photographer with 6 years' experience in the media industry capturing, editing and producing different kind of international events and sport competitions
- In-depth knowledge of digital photography techniques and principles includes knowledge of various photographic equipment, understanding lighting and developing an eye for choosing the right angle
- A clear understanding of the shooting subject and the full compliance with the instructions of the shooting
- Follows the clear instructions of the editor and provides one picture that can tell whole story
- Strong communication, time management, and team spirit
- Familiarity with Photoshop, Lightroom, Photo Mechanic and digital editing software

SKILLS

- Professional use of different types of lenses, camera bodies, tripod, flash, remote control and so on
- Ability to quickly and easily process the photos (cropping, white balance, contrast) to send to the editor during the event using file transfer protocol (FTP)
- Adding the headline text and metadata to the photo, via editing program. Writing articles and context if necessary
- Ability to predict the further accomplishment of the events and find the best point for shooting. As well as understanding the time and place for the best shots and preparing manual adjustment of shutter speed, aperture, white balance and ISO depending on the requirements
- Objective when covering events. Do not take anyone's side of the conflict, and equally cover all the participants
